"I strike multiple Top3 prizes, won a total of S\$21,560.00!"

"我中了多次前三奖赢得了 \$21,560.00 奖金!"

Hi Master,

I am sharing my winning joy again after I struck 2375 1st prize on both direct and system bet and won \$14,000.00 on 12/08/26 last week.

To my great surprise, I strike two Top3 prizes again the following week.

On both Weds 19/08/26 and 26/08/26, I struck system bet 4478 -1st prize won \$4,000.00 and 3rd Prize 8947 direct and system bet won \$3,560.00 respectively, which I won \$7,560.00. Together with \$14,000.00 that I won last week, my total winning was an awesome \$21,560.00!

To share with all readers, from the 2D/ 3D summary given to me at the 22/8 4D Webinar, I used the most frequent 3D "478" and "448" and combined to get a system number, 4478. As for system number 4789, there are many indicating signals. - system 2Ds (48,47,79,78) and 3D 478 and 479 clusters.

I chose system 3D-479 as the core 3D. Using the S4DM Pro's Command Centre module, I entered 3D – 479. From the list of 10 possible 4Ds, I decided to pick system number 4789 which are in range for both All prize and Top3. See screenshot below.
